***Defective Appeal Brief***

1. Acknowledgement is made of the Appeal Brief filed on 12/1/03. Claims 10-18 are pending. No claim is allowed.

Appeal brief is defective because claims stand rejected on statutory type (35 U.S.C. 101) double patenting which a terminal disclaimer cannot overcome this rejection. No response has been filed for 101 Double Patenting rejection.

2. Rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

3. A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

4. Claims 10-18 stand rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-9 of prior U.S. Patent No. 6,482,772. This is a double patenting rejection. Presently claimed invention is drawn to a solid mixture of sulfonylurea and an alkylpolyglycoside, their preparation and method of use for controlling undesirable plant growth, same invention is claimed in US '772.

5. Examiner notes a typing error in claim 11. See the definition of R19, line 2 where "—halogen atom. Furthermore, ----", a (.) after halogen should be removed.

Rejection under 103 is withdrawn. Mr. Jason Voight agreed to cancel the claim 18, which is independent and is not a solid mixture (See interview summary).
